14) The Mysore City Municipal Council is making all arrangements for the Civic Reception and public meeting without asking for a grant from the Govt. or for assistance from Govt. Depts. except for purposes of barricading roads.

15) Normally, expenditure connected with a Civic reception would be a proper charge on the revenues of the Municipal Council.

16) In view of the urgency, the Chief Electrical Engineer and the Chief Engineer have been authorised to carry out the electrical works and the seating arrangements at the Race Course. The Cost of these works is not estimated yet, and at a rough estimate may amount to nearly - Rs. 10,000/-.

17) It is for consideration whether as a special case a moiety of the Cost of the electrical works and the works carried out by the Govt. P. W. D. may be met by Govt.

18) It is good to have a uniform procedure in such matter. In case any special treatment is shown to the Bangalore city Corporation, the Mysore Municipality may also put up a similar claim. There is no information as to the probable cost of the Civic Reception & public meeting at Mysore, At any rate the reception at Bangalore will be more costly than at Mysore, specially when it is proposed to be held at the Race Course and ~~with~~ elaborate arrangements.
